Client Meeting Notes 2/21/11 3:30-4:00PM

Members in attendance: Dan, Ryan, and Kurt

Items Discussed:

Results Pages

-A consistant design needs to be created.

-Keep search criteria in the search box upon return to search page via PHP session variable

Calendar

-Set anchors for SE2 every week and have Week Selection function choose closest class

-Document PHP script so that client can easily edit for following years.

-Screen shots of editing (Dream Weaver) in Detailed Design

Functional Req.

-Expand upon the list; be less terse.

-Make each item in Func Req coincide with a test case.

-Include Print button for Results pages on Func Req inventory.

Demo

-Color Schema? Talk to Breimer.

-Check spelling and H1 tags for incorrect data.

Test Plan

-Clean it up; make it look professional
