Team Meeting #5 Notes
10/5/2010

1. Figured out a possible menu system

2. Talked about search functionality
   - Should be able to specify what to search by, either grad year, student name, or team name
   - When the search results in an exact hit, an information page will come up
   - When the search results in multiple hits, user will be taken to a page containing all the hits

3. Discussed corrections of Usage Case Narrative and Software Plan

Topics to be discussed at next client meeting:
   - search functionality, especially in regards to student and team pictures
   - go over sketches and the menu layout
