

Client Meeting

Software Lab

6:00 PM – 6:15 PM

Attendance: Abigail McCarthy, Patrick White, Peter Truong, Darren Lim

- Showed updated prototypes
 - Create New Problem
 - Test Cases functionality
 - Parameters
 - Added a logout page
- **Confirmation for a remove parameter**
 - Accidental clicking to prevent
 - More of a chance to remove by accident
- Need to fix up way to remove a test case, because it doesn't currently allow to remove specific test cases and only the bottom row
- **Finalization of constants:**
 - **Maximum of parameters is 5.**
 - **Maximum limit of test cases is 25.**
- **Does Create/Edit Assignment have a Save feature as well?**
- **Overwrite the question** instead saving previous history/instances.
- Focus on Create a Problem/Assignment
 - Then see standpoint of a student -> Answer a problem
 - Then Grade Book entry
 - A lot of this... Requires a database
 - Can have at least a display of what the prototypes will look like rather than focus on functionality
