Team Meeting
29 January 2014
Software Lab
7:15 – 8:00
Attendance: Luke Greiner, Abigail McCarthy, Robby Tateo, Patrick White, Peter Truong, Denis Kalic

Robby continue database:

"User table – all four user types

User name first, active, password, role 1/role 2, preference (priority to login first), prefix (non-applicable for students), last name and first name, security question and answer

Section table – distinct id, course coordinator, year

Course-wide assessment, assignment by section

Roster, student id and section id, and whether it's active

Assignment grade book, student id, faculty id, assignments

Some problems: need to figure out how to implement assignments in most efficient way"

Plan of Action:

- Robby – Database
- Patrick – Website
- Denis and Luke – Website / Coding
- Abigail – Administration
- Peter – Unit Test / Test Plan

Deadlines:

- Monday (2/3/14) – Prototype of Database for Client Meeting
- Wednesday(2/5/14) – Database (ERD) due

Client Meeting:

Attending: Abigail, Peter, Robby, (Luke or Denis)

Questions:

- Can you edit a question?
  - Will that make a whole new question?
  - How does that affect the database?
  - Should it overwrite?
- Further questions will be emailed and added to the document.
