User Home Page (userhome.php)								
Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	userhome.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	userhome.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	userhome.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	userhome.php	user.php	None	Load webpage	events.php page is loaded automatically
5	Registration Link Clicked	Link	Registration Link is Clicked	userhome.php	registration.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	userhome.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	userhome.php	help.php	None	Load webpage	help.php page is loaded automatically
8	Events Link Clicked	Link	Events Link is Clicked	userhome.php	events.php	None	Load webpage	events.php page is loaded automatically
9	Collapse All Link Clicked	Link	Collapse All Link is Clicked	userhome.php	userhome.php	None	Collapses everything on page that can be collapsed	All items that can be collapsed are collapsed on the page
10	Expand All Link Click	Link	Expand All Link is Clicked	userhome.php	userhome.php	None	Expands everything on page that can be expanded	All items that can be expanded are expanded on the page
11	Update Location Link Clicked	Link	Upload Location Link is Clicked	userhome.php	userhome.php	None	Updates IP Address of your location to the one that you are currently at if you need to update it	Updates Location's IP Address to IP Address that you are currently at

12	Drop Goos Link Clicked	Link	Drop Goos Link is Clicked	userhome.php	userhome.php	None	Drops Goos device from your database	Drops Goos device is dropped from your database
13	Toggle Goos Device	Link	Toggle Goos Device	userhome.php	userhome.php	None	Collapses & Expands Visibility of Goos table	Goos Table Collapses & Expands
14	Goos IP Link	Link	Goos IP Link is Clicked	userhome.php	IP Address/Web Site of the Goos Device	None	Shows website of Goos device	Website of Goos device shown
15	Drop Camera Link Clicked	Link	Drop Camera Link is Clicked	userhome.php	userhome.php	None	Drops camera device from your database	camera device dropped from your database
13	Toggle Camera Device	Link	Toggle Camera Device	userhome.php	userhome.php	None	Collapses & Expands Visibility of Camera table	Camera Table Collapses Expands
14	Camera IP Link	Link	Camera IP Link is Clicked	userhome.php	IP Address/Web Site of the Camera Device	None	Shows website of Camera device	Website of Camera device is shown
15	Logout Link Clicked	Link	Logout Link is Clicked	userhome.php	screen w/ link to login page	None	User is Logged Out	User is logged out

Login Page (login.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
7	Enter User Name	User Name	User enter his/her user name in the user name text box	login.php	login.php	user name	Enter text into User Name text box	User Name text box displays the name that the user has entered
8	Enter Password	Password	User enter his/her password in the password text box	login.php	login.php	password	Enter text into Password text box	Password text box displays the encrypted password that the user has entered
9	Forgotten Password Link Clicked	Link	Forgotten Password Link is Clicked	login.php	Lost_Password_Home.php	None	Load webpage	Lost_Password_Home.php webpage is loaded automatically that helps instructs user how to get new password
10	Incorrect User Name	User Name	valid, incorrect user name is entered	login.php	Error page	user name, password	Load error webpage	webpage is loaded automatically telling use that his/her authenticatic attempt was incorrect
11	Incorrect Password	Password	valid, correct user name is entered and valid, incorrect password is entered	login.php	Error page	user name, password	Load error webpage	webpage is loaded automatically telling use that his/her authenticatic attempt was incorrect
12	Invalid Password	Password	An invalid password is entered	login.php	Error page	user name, password	Load error webpage	webpage is loaded automatically telling use that his/her authenticatic attempt was incorrect
13	Correct Login	login	valid, correct user name and password is entered	login.php	userhome.php	user name, password	Load webpage	userhome.php page is loaded automatically

14	Login Button Clicked	Button	Login Button is Clicked	login.php	login_action.php	user name, password	Load webpage, submits variables w/in form	login_action.php page is loaded automatically
15	Faq Link Clicked	Link	Faq Link is Clicked	login.php	faq.php	None	Load webpage	faq.php page is loaded automatically
16	New User Registration Link Clicked	Link	New User Registration Link is Clicked	login.php	User_Registration.php	None	Load webpage	User_Registration.php page is loaded automatically for a new user can create a new account

User Alerts Page (alerts.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	alerts.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	alerts.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	alerts.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	alerts.php	user.php	None	Load webpage	events.php page is loaded automatically
5	Registration Link Clicked	Link	Registration Link is Clicked	alerts.php	registration.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	alerts.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	alerts.php	help.php	None	Load webpage	help.php page is loaded automatically
8	Alert ID Link	Link	Alert ID link is Clicked	alerts.php	alerts.php	None	Sorts Table by Alert ID	Alerts table is sorted by Alert ID
9	Goos ID Link	Link	Goos ID link is Clicked	alerts.php	alerts.php	None	Sorts Table by Goos ID	Goos table is sorted by Goos ID
10	Time Of Alert Link	Link	Time of Alert link is Clicked	alerts.php	alerts.php	None	Sorts Table by Time of Alert	Alerts table is sorted by Time of Alert
11	Alert Reading Link	Link	Alert Reading link is Clicked	alerts.php	alerts.php	None	Sorts Table by Alert Reading	Alerts table is sorted by Alert Reading
12	Type of Alert Link	Link	Type of Alert link is Clicked	alerts.php	alerts.php	None	Sorts Table by Type of Alert	Alerts table is sorted by Type of Alert
13	Delete Alert Link Clicked	Link	Delete Alert Link is Clicked	alerts.php	alerts.php	None	Deletes Alert	Alert is deleted from the database
14	Logout Link Clicked	Link	Logout Link is Clicked under its location	alerts.php	alerts.php	None	Load webpage	logout.php page is loaded automatically

User Events Page (events.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	events.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	events.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	events.php	events.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	events.php	events.php	None	Load webpage	events.php page is loaded automatically

5	Registration Link Clicked	Link	Registration Link is Clicked	events.php	events.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	events.php	events.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	events.php	events.php	None	Load webpage	help.php page is loaded automatically
8	Event ID Link	Link	Event ID link is Clicked	events.php	events.php	None	Sorts Table by Event ID	Events table is sorted by Event ID
9	Location ID Link	Link	Location ID link is Clicked	events.php	events.php	None	Sorts Table by Location ID	Location table is sorted by Location ID
10	IP Address Link	Link	IP Address link is Clicked	events.php	events.php	None	Sorts Table by IP Address	Events table is sorted by IP Address
11	Time of Event Link	Link	Time of Event link is Clicked	events.php	events.php	None	Sorts Table by Time of Event	Events table is sorted by Time of Event
12	Type of Event Link	Link	Type of Event link is Clicked	events.php	events.php	None	Sorts Table by Type of Event	Events table is sorted by Type of Event
13	Delete Event Link Clicked	Link	Delete Event Link is Clicked	events.php	events.php	None	Deletes Event	Event is deleted from the database
14	Logout Link Clicked	Link	Logout Link is Clicked under its location	events.php	screen w/ link to login.php	None	User is Logged out	logout.php page is loaded automatically logging the user out

FAQ Page (faq.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	faq.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	faq.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	faq.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	faq.php	user.php	None	Load webpage	events.php page is loaded automatically
5	Registration Link Clicked	Link	Registration Link is Clicked	faq.php	faq.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	faq.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	faq.php	help.php	None	Load webpage	help.php page is loaded automatically

Help Page (help.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	help.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	help.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	help.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	help.php	user.php	None	Load webpage	events.php page is loaded automatically

5	Registration Link Clicked	Link	Registration Link is Clicked	help.php	faq.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	help.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	help.php	help.php	None	Load webpage	help.php page is loaded automatically
8	Logout Link Clicked	Link	Logout Link is Clicked under its location	help.php	logout.php	screen w/ login.php link	user is logged out	user is logged out

Camera Registration Page (camera.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	camera.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	camera.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	camera.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	camera.php	user.php	None	Load webpage	events.php page is loaded automatically
5	Registration Link Clicked	Link	Registration Link is Clicked	camera.php	faq.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	camera.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	camera.php	help.php	None	Load webpage	help.php page is loaded automatically
8	Logout Link Clicked	Link	Logout Link is Clicked	camera.php	logout.php	None	Load webpage	logout.php page is loaded automatically
9	Camera IP Entered	Camera IP	IP Address of User's Camera is entered in text box	camera.php	camera.php	IP of User's Camera	Enter Camera IP Address into text box	IP Address of user's camera is shown in the text box as entered
10	Submit Button Clicked	Button	Submit Button is Clicked	camera.php	camera_action.php	user name, password	Load webpage, submits variables w/in form	camera_action.php page loaded automatically

Add Location Page (location.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	location.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	location.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	location.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	location.php	user.php	None	Load webpage	events.php page is loaded automatically
5	Registration Link Clicked	Link	Registration Link is Clicked	location.php	faq.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	location.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	location.php	help.php	None	Load webpage	help.php page is loaded automatically
8	Logout Link Clicked	Link	Logout Link is Clicked	location.php	logout.php	None	Load webpage	logout.php page is loaded automatically
9	Location Name Entered	Location Name	Name of User's Location is entered in text box	location.php	location.php	name of location	Enter text into Location Name text box	name of user's new location is shown in the text box as entered

9	Location Description Entered	Location Description	Description of User's Location is entered in text box	location.php	location.php	description of location	Enter text into Location Description text box	description of user's new location is shown in the text box as entered
10	Address Entered	Address	Address of User's Location is entered in text box	location.php	location.php	address of location	Enter text into address text box	address of user's new location is shown in the text box as entered
11	Phone Number Entered	Location Phone Number	Phone # of User's Location is entered in text box	location.php	location.php	phone # of location	Enter text into Location phone # text box	phone # of user's new location is shown in the text box as entered
12	Submit Button Clicked	Button	Submit Button is Clicked	location.php	location_action.php	name, description, address, phone number	Load webpage, submits variables w/in form	location_action.php page is loaded automatically

Goos Registration Page (goos.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	goos.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	goos.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	goos.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	goos.php	user.php	None	Load webpage	events.php page is loaded automatically
5	Registration Link Clicked	Link	Registration Link is Clicked	goos.php	faq.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	goos.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	goos.php	help.php	None	Load webpage	help.php page is loaded automatically
8	Logout Link Clicked	Link	Logout Link is Clicked	goos.php	logout.php	None	Load webpage	logout.php page is loaded automatically
9	IP Address Entered	Location Description	IP Address of User's Goos is entered in text box	goos.php	goos.php	IP of Goos device	Enter text into IP Address text box	IP Address of user's new goos is shown in the text box as entered
9	Goos Name Entered	Location Name	Name of User's Goos is entered in text box	goos.php	goos.php	name of goos	Enter text into Location Name text box	name of user's new goos shown in the text box as entered
10	Type of Goos Selected	Drop Down Menu	Type of User's Goos is selected	goos.php	goos.php	type of goos	Select type of goos	goos selected is highlighted
11	Submit Button Clicked	Button	Submit Button is Clicked	goos.php	goos_action.php	name, type, ip address, phone number	Load webpage, submits variables w/in form	goos_action.php page is loaded automatically

Peripheral Registration Page (peripheral.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	peripheral.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	peripheral.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	peripheral.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically

4	Events Link Clicked	Link	Events Link is Clicked	peripheral.php	user.php	None	Load webpage	events.php page is loaded automatically
5	Registration Link Clicked	Link	Registration Link is Clicked	peripheral.php	faq.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	peripheral.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	peripheral.php	help.php	None	Load webpage	help.php page is loaded automatically
8	Logout Link Clicked	Link	Logout Link is Clicked	peripheral.php	logout.php	None	Load webpage	logout.php page is loaded automatically
10	Type of Sensor Selected	Drop Down Menu	Type of User's Sensor is selected	peripheral.php	peripheral.php	type of Sensor	Select type of Sensor	Sensor selected is highlighted
10	Low Threshold Entered	Low Threshold	Low Threshold Temp of Goos is selected	peripheral.php	peripheral.php	low threshold of goos	low threshold of peripheral is entered	low threshold of peripheral is entered
10	High Threshold Entered	High Threshold	High Threshold Temp of Goos is selected	peripheral.php	peripheral.php	high threshold of goos	high threshold of peripheral is entered	high threshold of peripheral is entered
10	Enable Alarm	Drop Down Menu	Determines if User's Peripheral alarm is enabled	peripheral.php	peripheral.php	type of goos	Alarm status is entered	Alarm status is entered
11	Submit Button Clicked	Button	Submit Button is Clicked	peripheral.php	peripheral_action.php	type, low thresh, high thresh,	Load webpage, submits variables w/in form	peripheral_action.php page is loaded automatically

Guest User Registration page (Guest_Registration.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	Guest_Registration.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	Guest_Registration.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	Guest_Registration.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	Guest_Registration.php	user.php	None	Load webpage	events.php page is loaded automatically
5	Registration Link Clicked	Link	Registration Link is Clicked	Guest_Registration.php	faq.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	Guest_Registration.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	Guest_Registration.php	help.php	None	Load webpage	help.php page is loaded automatically
8	User First Name Entered	User First Name	User's Guest's First Name is entered in text box	Guest_Registration.php	Guest_Registration.php	first name of user	Enter text into User First Name text box	first name of user is shown in the text box as entered
9	User's Guest's Last Name Entered	User Last Name	User Last Name is entered in text box	Guest_Registration.php	Guest_Registration.php	last name of user	Enter text into User Last Name text box	last name of user is shown in the text box as entered
10	User Address is Entered	Address	User Address is entered in text box	Guest_Registration.php	Guest_Registration.php	user address	Enter text into User's Address text box	address of user is shown in the text box as entered
11	Home Phone Number is Entered	Home Phone Number	User Home Phone Number is entered in text box	Guest_Registration.php	Guest_Registration.php	user home phone number	Enter text into User's Home Phone Number text box	home phone number of user is shown in the text box as entered

11	Cell Phone Number is Entered	Cell Phone Number	User Cell Phone Number is entered in text box	Guest_Registration.php	Guest_Registration.php	user cell phone number	Enter text into User's Cell Phone Number text box	cell phone number of user is shown in the text box entered
12	User Email is Entered	User Email	User Email is entered in text box	Guest_Registration.php	Guest_Registration.php	user email	Enter text into User's email text box	email of user is shown in the text box as entered
13	User Password is Entered	User Password	User Password is entered in text box	Guest_Registration.php	Guest_Registration.php	user password	Enter text into User's Password text box	password of user is shown in the text box as entered
13	Retype Password is Entered	User Password	User's Retyped Password is entered in text box	Guest_Registration.php	Guest_Registration.php	user password	Enter text into User's Retype Password text box	retyped password of user is shown in the text box entered
14	User Security Question is Entered	User Security Question	User Security Question is entered in text box	Guest_Registration.php	Guest_Registration.php	user security question	Enter text into User's Security Question text box	security question of user shown in the text box as entered
15	User Security Answer is Entered	User Security Answer	User Security Answer is entered in text box	Guest_Registration.php	Guest_Registration.php	user security answer	Enter text into User's Security Answer text box	security answer of user is shown in the text box as entered
16	Register Button Clicked	Link	Register Button is Clicked	Guest_Registration.php	Guest_Registration_Redirect.php	variables from form	variables sent to Guest_Registration_Redirect.php	variables in form are processed and an email is sent for successful registration

Guest User Registration Redirect page (Guest_Registration_Redirect.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Email Sent	Email	Email Sent to Registering User	Guest_Registration_Redirect.php	Guest_Registration_Redirect.php	none	Send an Email	Email is sent to user tell he/she that they have registered

User Registration page (User_Registration.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	User_Registration.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	User_Registration.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	User_Registration.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	User_Registration.php	user.php	None	Load webpage	events.php page is loaded automatically
5	Registration Link Clicked	Link	Registration Link is Clicked	User_Registration.php	faq.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	User_Registration.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	User_Registration.php	help.php	None	Load webpage	help.php page is loaded automatically
8	User First Name Entered	User First Name	User's Guest's First Name is entered in text box	User_Registration.php	User_Registration_Redirect.php	first name of user	Enter text into User First Name text box	first name of user is shown in the text box as entered
9	User's Guest's Last Name Entered	User Last Name	User Last Name is entered in text box	User_Registration.php	User_Registration_Redirect.php	last name of user	Enter text into User Last Name text box	last name of user is shown in the text box as entered

16	Go Button Clicked	Link	Go Button is Clicked	Guest_Registration.php	Guest_Registration_Redirect.php	user email	email sent to Lost_Password.php	email are processed and email is sent for successfully recover the password

Lost User Password Redirect page (Lost_Password_Redirect.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Email Sent	Email	Email Sent to Registering User	Guest_Registration_Redirect.php	Guest_Registration_Redirect.php	none	Send an Email	Prints a message saying Email is sent to user tell his or her email

User Registration Redirect page (User_Registration_Redirect.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Email Sent	Email	Email Sent to Registering User	User_Registration_Redirect.php	User_Registration_Redirect.php	none	Send an Email	Email is sent to user tell he/she that they have registered

User Registration Update page (User_Registration_Update.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	User_Registration_Update.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login Link Clicked	Link	Login Link is Clicked	User_Registration_Update.php	login.php	None	Load webpage	login.php page is loaded automatically
3	Alerts Link Clicked	Link	Alerts Link is Clicked	User_Registration_Update.php	alerts.php	None	Load webpage	alerts.php page is loaded automatically
4	Events Link Clicked	Link	Events Link is Clicked	User_Registration_Update.php	user.php	None	Load webpage	events.php page is loaded automatically
5	Registration Link Clicked	Link	Registration Link is Clicked	User_Registration_Update.php	faq.php	None	Load webpage	registration.php page is loaded automatically
6	Faq Link Clicked	Link	Faq Link is Clicked	User_Registration_Update.php	faq.php	None	Load webpage	faq.php page is loaded automatically
7	Help Link Clicked	Link	Help Link is Clicked	User_Registration_Update.php	help.php	None	Load webpage	help.php page is loaded automatically
8	User First Name Entered	User First Name	User's Guest's First Name is entered in text box	User_Registration_Update.php	User_Registration_Update.php	first name of user	Enter text into User First Name text box	first name of user is shown in the text box as entered
9	User's Guest's Last Name Entered	User Last Name	User Last Name is entered in text box	User_Registration_Update.php	User_Registration_Update.php	last name of user	Enter text into User Last Name text box	last name of user is shown in the text box as entered
10	User Address is Entered	Address	User Address is entered in text box	User_Registration_Update.php	User_Registration_Update.php	user address	Enter text into User's Address text box	address of user is shown in the text box as entered
11	Home Phone Number is Entered	Home Phone Number	User Home Phone Number is entered in text box	User_Registration_Update.php	User_Registration_Update.php	user home phone number	Enter text into User's Home Phone Number text box	home phone number of user is shown in the text box as entered
11	Cell Phone Number is Entered	Cell Phone Number	User Cell Phone Number is entered in text box	User_Registration_Update.php	User_Registration_Update.php	user cell phone number	Enter text into User's Cell Phone Number text box	cell phone number of user is shown in the text box as entered
12	User Email is Entered	User Email	User Email is entered in text box	User_Registration_Update.php	User_Registration_Update.php	user email	Enter text into User's email text box	email of user is shown in the text box as entered

17	IP Address Link	Link	IP Address link is Clicked	adminhome.php	adminhome.php	None	Sorts Table by IP Address	Events table is sorted by IP Address
18	Time of Event Link	Link	Time of Event link is Clicked	adminhome.php	adminhome.php	None	Sorts Table by Time of Event	Events table is sorted by Time of Event
19	Type of Event Link	Link	Type of Event link is Clicked	adminhome.php	adminhome.php	None	Sorts Table by Type of Event	Events table is sorted by Type of Event
20	Delete Event Link Clicked	Link	Delete Event Link is Clicked	adminhome.php	adminhome.php	None	Deletes Event	Event is deleted from the database

Logout Page (logout.php)

Num	Name	ID	Description	State Before Test	State After Test	Input/Test Values	Steps to be Executed	Expected Results
1	Home Page Link Clicked	Link	Home Page Link is Clicked	lostpassword.php	userhome.php	None	Load webpage	userhome.php page is loaded automatically
2	Login/Logout Link Clicked	Link	Login/Logout Link is Clicked	lostpassword.php	login.php	None	Load webpage	login.php page is loaded automatically
