ACADEMIC PROJECTS:

Deductive Proof Application: https://github.com/SienaCollegeSoftwareEngineering/Elite
- Developed a web application based on client requests.
- Worked in a team of six to develop an application that would help users improve their deductive reasoning by utilizing an instructor/student structure.
- Designed the database structure using phpMyAdmin.

Ticket to Ride
- Worked in a team of four to recreate the board game Ticket To Ride in a Java applet.
- Focused on logic aspects to the game, ex: capturing a route and applying different rules for multiple players.

JOB EXPERIENCE:

Siena College, Loudonville, NY
ITS Consultant, (June 2015-Present)
- Assisted students and faculty with computer issues in person and on the phone.
- Reinstalled software, removed viruses, reimaged and installed new operating systems.
- Diagnosed technical issues in classrooms and labs.

Stewart's Shops, Latham, NY
Closer, (July 2013-August 2014)
- Managed daily tasks and nightly store closing responsibilities in shifts of two to three employees.
- Maintained a friendly environment for both customers and employees.
- Responsible for handling cash and making bank deposits.
- The store earned multiple shop of the month awards while employed.
