

Attendees: Tom Mottola, Collin Lefeber

Discussed our team website

- Where our notes and documents are etc.

Reviewed our Software Plan power point presentation, reviewed constraints

Functional Requirements discussion

- Be able to view times where no teachers are teaching, free times
- Be able to view open time slots for labs
- Faculty's ability to set office hours and display on their schedule

User Case Narrative

- Decided on specific users: Faculty, Student, Course Administrator (Dr. Yoder)
- Discussed how each would use, their abilities (or restrictions) to modify/view schedules
