

enigma elucidation

Client meeting

Tuesday, November 15, 2011

CS Library, 4:30 - 6:30 p.m.

Discussed what create IAT page should look like

Top of page

Create survey button

Underneath

Enter categories

Two rows labeled pair 1 and 2 respectively

Two columns labeled primary (used to name table and calculate bias) and opposite

Underneath (grayed out until categories are completed)

Choose stimuli * no limit

Box for word, browse for image, choose category it goes with (radio buttons)

Categories listed above radio buttons

As each is entered populates a list underneath

Most recent uploaded, top

Confirm creation of IAT

Finish

Associations range from +1 to -1

+1 – strong association

-1 – weak association

0 – indifferent

Calculated from primary categories

Teams may be splitting project

1- Front end (creating/ taking IAT and survey)

2- Back end (login/ view IAT results)

No meeting next week
