Client Meeting

CS Library, 2:30 – 3:30 p.m.

Meeting Notes

Password Handling

- Forgot password sent to email
- Do not need to encrypt password

Lime Survey

- Log-in once
- Hyperlink to everything
- At end of create survey – get Survey ID and store it
 - o When create survey is complete, look up survey ID on lime survey and connect it to our tables
 - o At the point of survey creation – lime survey puts survey ID in a table and then another line to insert it to our database

Participant

- URL to IAT at the end of survey
 - o Does not mind copy and pasting
 - o At point of survey taken: need to find participant ID for survey
 - Find last insertion

Look into the Lime Survey open source PHP code to see where to manipulate code to perform the needed functions
