

## Team Meeting #2

### **Software Plan**

- Decide what outline to use
- Start writing stuff up this weekend so that on Monday we can put things together and in order
- Get specs of computers we're working with
- Resumes (old and new!) are due to Steph by Wednesday night at the latest

### **Presentation**

- Make sure each team member is familiar with ALL parts of software plan before we present
- Be prepared!

### **For next Client meeting**

- Look up all necessary programs and languages for the project
  - JQuery
  - Ruby
- Start on website
- Finalize problem definition
