FNA

Technologies

Fredrick Norton Associated Technologies ™

What the product should do

- Track the different events in which individuals have participated in throughout the year

- Track the amount of credits any member has and their eligibility for retirement status

- Allows a system user to access and edit the data quickly and effortlessly

- Serves as a primary source for all information of this kind within the EMS system

[SAP](SAP)

Requirements Review

- Met Requirements
  - Members Profile, Duties and Activities are functional

- Unmet Requirements
  - Authenticate Reports and Archiving are non-functional

Deliverables

- Our deliverables include a compact disc and a hard copy of the acceptance criteria document

- Included on the compact disc are the installation file, source code and any needed system files.
