

Client Meeting 7

Darren – Zachary, Anthony, Michael, Matthew, Renee
October 7, 2011

User Case Narratives

Pronouns are bad!

Technical writing lab

We did use some pronouns, which obviously need to be removed

“A Team advisor will be able to log into SLICE to view the problems and scoreboard.”

Their user names – their is a problem

Names and passwords – don’t have multiple passwords

Send Lederman an email asking when are we allowed to rework on the narratives.

Make Scoreboard it’s own Narrative- make clear that they can do everything a judge can do as well as the extra responsibilities

To Do List

Refine on Sunday and meet up with Darren at 5.

Send Darren an email for a reminder email.

Really go over program contest and SLICE so that EVERYONE on our team thoroughly understands so again, EVERYONE is capable of answering any questions from Lederman
