S.E.E. Solutions
Client Meeting Notes
11/12/12
Kelly Bedard, Tyler Mann, Brett Rudloff

Start 1:30 P.M.

General

- If implemented as tabs we should be able to shift around the order of the roles
- Tabs are important, if we can do it than we should try
- Conference Chair, Other Chairs, Panels, Workshops, tutorials, reviewers, submitter, programming contest, vender.
- Can't be a faculty advisor and programming contest participant
- Faculty can't be student

Log In Page

- Change submit button to Log on
- Change Register to "Register for conference" or add some text to make it clear

Reviewer Role Page

- Indication to whether a submission has been reviewed
  - o Green or Red dot possibly
- Web form for the review, but need to wait on Dr. Teresco
- Criteria may be a little bit different for each type of submission

Submitter Role Page

- Need to submit 2 things for papers, one is anonymous and one is the full thing
- There is the initial submission and the final submission
- System should store the initial submission after the final one has been submitted

Set Up Schedule Page

- Conference Chair should be able to set up the number of tracks
- Conference Chair also includes how many days there are, when the breaks are and when the programming contest is.
- Be able to span an event all columns if it does not overlap with anything
  - o HTML tables possibly

Payment Configuration

- There will be a lot more for configuration.
- Ability to add items to the configuration.
- Add item button that the Conference chair can add the name of the item and the price.

Account Configuration

- Sort by arrow for each field
- No checkboxes for the role selection
- If someone is an attendee, go to account settings and add from there who is a reviewer
- Paper Chair has the ability to set up the reviewers by giving them an account with a default password.
- System should be able to deny people based on certain criteria
- Possibly check for schools by zip code.
