Client Meeting 2/11/13
Brett, Tyler, Kelly

<u>ERD</u>
·   Events is okay to use for both important dates and presentations

<u>Testing</u>
·   Detailed Design need all unit tests
·   Look at Unit tests and functional, nonfunctional requirements
·   To Test quality – "stupid roommate test"
·   Controlling the risk – not much risk, (Ex. Two people trying to log on at the exact same time)
·   Risk is really with using third party and we do not have any

For next meeting:
