VERIFICATION TOOL

WHAT IS IT?

Tool that allows a
user to verify their
Myers Briggs
personality type.

WHY IT'S NEEDED

- no tool currently available similar to this
- At least 40% of people taking the test are mismatched with their type
- Johari window is only comparable product

WHY IT'S NEEDED

- Its important to be properly identified
- Better type identifications means better teams formed

HOW IT WORKS

the tool allows users to send a test to their family and friends to take a Myers Briggs tool on their behalf.

The users personality type is then determined based on the average results from all the collected test data

BENEFITS

- eliminate bias
- allows participant to see what other people see them as
-
- increases overall accuracy of a participants type

SPRINT 1

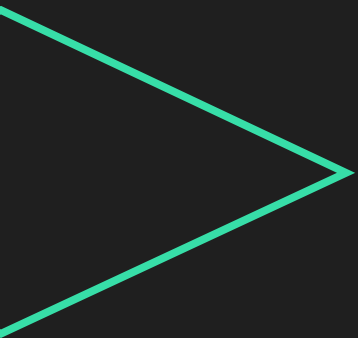

OVERALL GOALS

- Create login page
- Create different user types
- allow user to login with hashed password

USER STORIES

as a user,

- I want a login page, so I can login to the website
 - I want to be able to create an account so I can take the test
 - I want my password to be stored securely, so my password is not easily stolen
-

SPRINT 2

OVERALL GOALS

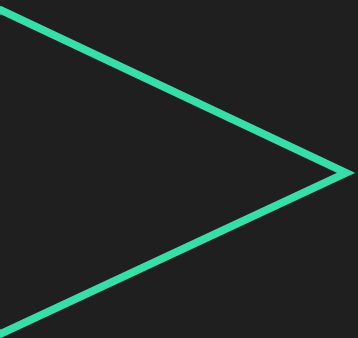

- allow user to generate unique link to send to family/friends
 - set restrictions on who can be a proctor
 - popup error messages
- 

USER STORIES

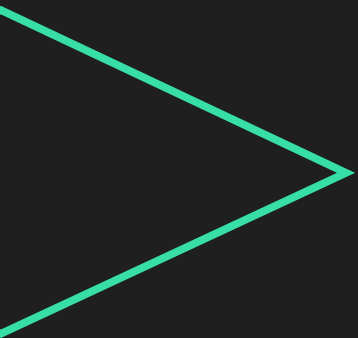

as a proctor,

- I want a login page different than the user, so I can see other users information
 - I want restrictions on who can become a proctor, so not everyone can have access to the students confidential information
- 

USER STORIES CONT.

as a user,

- I want a unique link, so I can send it to family/friends to take a test for me
 - I want popup error messages, so I know why something is not working
-
