

**Client Meeting**  
**Tuesday March 8, 2016**

### **1. Fix Add Pages**

- a. Can use drop-downs, radio buttons, and checkboxes to clean up the pages and prevent users from entering incorrect information
- b. Add Firefighter Page:
  - i. ID - auto-increment
  - ii. Date of Birth - drops downs OR calendar pop-up
  - iii. Gender - radio buttons
  - iv. Rank - drop down OR radio buttons
  - v. Type - radio buttons
  - vi. Credentials - check boxes
- c. Add Firetruck Page:
  - i. Type - drop down OR radio buttons
  - ii. Status - drop down OR radio buttons
  - iii. ID - auto-increment
- d. Enter Call Page:
  - i. Call Type - drop down OR radio buttons

### **2. Available Firefighters**

- a. Need a distinction between who is at the firehouse and who is a member
- b. Available firefighters need to be made unavailable when they decide to go home
- c. Can only assign a firefighter to a truck if they show up to the firehouse

### **3. Google Maps**

- a. Wants to see a map from the firehouse to the call
- b. Pull up map on "Truck Assignment" page - want to do most business here
- c. Check out Google Maps API

### **4. Clean Up Design**

- a. Make design more intuitive so that people who have never seen it can use it
- b. On "Truck Assignment" page - move calls drop down so that it is above the calls info bar
- c. Colors, logos, pictures, etc.
  - i. Perhaps a shade of red?
