

Team Meeting

07 April 2014

RB 250

7:00 pm – 7:30 pm

Attendance: Peter Truong, Abigail McCarthy, Robert Tateo, Patrick White, Luke Greiner

Move Client Meeting to Friday

- Prepare Create Problem and Delete Course prototype to demonstrate to Dr. Lim
- On Friday, Patrick, Luke, and Robert will be present at this meeting

Discussion

- Argument over the design of database
 - Needs to be finalized in order to fit with program
 - Consensus needs to be made in order to proceed
- Delete Question/Course/ANYTHING does not permanently delete, but only disables...
 - This allows for the linking between question ids
- Linking of questions ids is going to be established by implementing another database field for the problem id link or parent problem id

Tasks

- Luke, Patrick, and Denis prepare for the prototypes required for Friday's client meeting
 - Also think about possible: Edit User, Re-activating Users
- Robert fix the database and make it work, because it needs to work..
- Peter begin to focus on the unit testing
 - Whistle blow if forced to fake testing
- Abigail will continue to delegate tasks to ensure the fulfillment of the project
