Client Meeting Notes 2    2/20/12          1:30 – 2:00 Monday

Testing Plan – We need to make sure our program scales to 30 contestants and 40 members.

When and where will we perform this test?

When creating the E/R Diagram, there needs to be assurance that the normalization is boyce codd normal form or third normal form.

Meg Fryling and Scott Vandenburg are available for critiquing.

Marco is working on the secret

User interfaces need to be critiqued or looked at by Paul

Since we are getting further into design and testing, there can be more description in Activity Diagrams and UML Class Diagrams created.
