

Team Meeting

11/14/2011

Marco and Tom will work on ExoNET's Data Dictionary for Friday.

- Make sure to include incorrect input
- Example Data Names: Username, Password, Team Name (varchar 10?), Contestant Name, Team Score (Boolean or running tally or time lapsed), etc.

Steph and Tom will work on unit tests

- Two or three are due on Friday
- ex: make sure login works – make sure 30 teams can log in

Steph and Paul will work on Data Flow process

- Go down to level 3 (do not use authenticate)
