

Client Meeting
10/10/13
5:45 PM - 6:30 PM
Karl, Bryan, Connor

- Commented on the drawings that we made up
 - when searching for a magic card, we need edition as part (possible drop down)
 - current value should have site so client know which one it is for that price
- Google Fusion Tables
 - appears to have most to all cards with the unique id #
- When we search for a card multiple times, we need to have him just search so it doesn't overwrite the data
- The list of websites are in order because the top is of more priority if two sites have the same price
- At this time, guest user cannot become an advanced user
- Need to change 5 on the Level 0 DFD
- Next Meeting: Thursday, 10/17 at 5:45 PM
