

Client Meeting
10/3/13
5:45 PM - 6:15 PM
Karl, Bryan, Connor

- User Case Narrative
 - Needs to be sent to Dr. Lim
 - Users are acceptable
 - Cases also acceptable

- Functionality
 - Need to get data legally (non-functional dependency)
 - get information in any way (as long as it is legally done)

- Card Attributes
 - Need edition along with name of card
 - there is a unique card number (could be used as a primary key in database)
 - Gatherer website is a database of all cards

- Software needs a look up function

- May be a way to get all cards data from website

- Every 2 months on average there is a new release of cards
 - need to account for this in our software

- Next meeting: Dr. Lim will show us stuff on the website

- Meetings tentatively changed to Thursday at 5:45
