

Team Meeting
10/21/13
Software Engineering Lab
Everyone Except Connor Was Present and On Time
12:30-1:00

- Talked about the Requirement Specifications Document
 - for the prototype section, we are going to break it up into two sections, one will be the digital mock-ups for the system and the other will be code that Karl and Connor made for the actual scraping and parsing of a few of the sites

- General Assignments for the week:
 - Try to have everything done for the document by Wednesday/Thursday so that we can meet and put it all together to be delivered for Friday
 - Try to get the powerpoint slide for your part done before Sunday so they can be put together and we can have a dress rehearsal for the presentation

- Upcoming Meetings:
 - Team Meeting- Wednesday 10/23 at 12:30
 - Client Meeting- Thursday 10/24 at 5:45
 - Team Meeting- Thursday after client meeting to put together the document
 - Meeting Sunday to go over powerpoint and practice presenting
