

ALUMNI SPOTLIGHT WEB SYSTEMS (ASWS)

Prototype Screens

Registration Screen

a.)

The image shows a screenshot of the Drupal registration screen. At the top, there is a blue header with the Drupal logo and the word "Drupal" in white. To the right of the logo, there are navigation links: "Support", "Handbooks", "Forum", "Downloads", "Contribute", "Contact", and "Community". Below the header, there is a search bar with a "Search" button. The main content area is titled "user account" and has three buttons: "log in", "register", and "request new password". Below these buttons, there is a note: "Note: if you have an account with one of our affiliates (Drupal), you may login now instead of registering." The registration form is divided into two sections: "Account information" and "Personal information". The "Account information" section has two required fields: "Username:" and "E-mail address:". The "Username:" field has a note: "Your full name or your preferred username; only letters, numbers and spaces are allowed." The "E-mail address:" field has a note: "A password and instructions will be sent to this e-mail address, so make sure it is accurate." The "Personal information" section has two required fields: "Full name:" and "Country:". The "Full name:" field has a note: "Specify your first and last name." The "Country:" field is a dropdown menu with "Afghanistan" selected and a note: "Specify your country." At the bottom of the form, there is a "Create new account" button.

*Retype E-mail:

Create a password.
It must be a minimum of 6 characters in length and contain at least one number.

*Password:

*Confirm Password:

Please Choose a Security Question: *

Please Enter Your Answer: *

* indicated fields that must be completed.

Picture "a" is a screen shot from the actual default Drupal interface while picture "b" is a picture of the actual fields that will be included in the final registration screen. These two screens will be combined in order to create one screen that will contain all necessary fields as well as provide a professional and user friendly design. The purpose of this screen is to allow new users to join the community. This screen is where new users will register for an account. The user's email address will serve as their user name, or account ID for the web system. The user is then given a temporary password, which will confirm their account, and an email will be sent with the user's password. Upon successful submission, the user will be directed to a confirmation screen. If the submission is unsuccessful, the screen will be reloaded with a note stating the reason for the error. This screen will be accessed from the sign on screen and possibly from other locations undetermined at this time.

Submit Screen

Thank you for registering for the Alumni Spotlight Web System. You will receive an e-mail shortly with a link to confirm your registration.

This screen will open in a new window thanking the user for registering with the Alumni Spotlight Web Systems. The purpose of this screen is to tell the user that they will be receiving an e-mail used to confirm the registration. It will only be accessed by users registering for an account.

Confirmation E-mail

From:	info@drupal.org [info@drupal.org]	Sent: Thu 11/16/2006 11:29 PM
To:	McConnell, Christopher	
Cc:		
Subject:	Account details for xSKK169x at drupal.org	
Attachments:		

xSKK169x,

Thank you for registering at drupal.org. You may now log in to <http://drupal.org/user> using the following username and password:

username: xSKK169x
password: frrVtmKm5f

You may also log in by clicking on this link or copying and pasting it in your browser:

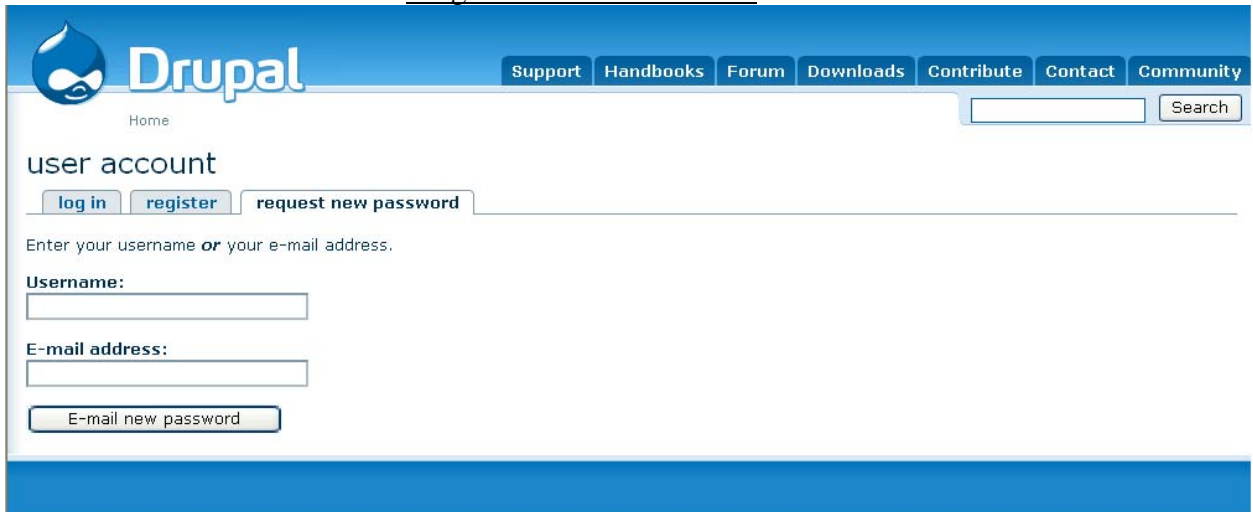

<http://drupal.org/user/reset/92722/1163737748/022d9eb7ddc1c278a2ace164f35e8e6f>

This is a one-time login, so it can be used only once.

After logging in, you will be redirected to <http://drupal.org/user/92722/edit> so you can change your password.

The purpose of this e-mail is to tell the user that he/she has been approved for an account and that they are now able to log in to the system. This e-mail is a confirmation of a successful registration. This e-mail will only be sent to users that have just registered for a new account. It will contain a link that will direct the user back to the Drupal site. Upon clicking this link, the user's account will be verified. Another link will also be present in the e-mail that will allow the user to change their password. The account must be verified before the password can be changed.

Forgotten Password Screen

The screenshot shows the Drupal user account page. At the top, there is a blue header with the Drupal logo and the word "Drupal" in white. To the right of the logo, there are several navigation links: "Support", "Handbooks", "Forum", "Downloads", "Contribute", "Contact", and "Community". Below the header, there is a search bar with a "Search" button. The main content area is titled "user account" and contains three buttons: "log in", "register", and "request new password". Below these buttons, there is a text input field for entering a username or email address. The text "Enter your username *or* your e-mail address." is displayed above the input field. Below the input field, there are two labels: "Username:" and "E-mail address:", each followed by a text input field. At the bottom of the form, there is a button labeled "E-mail new password".

The purpose of this screen is to give the user the ability to recover a lost or forgotten password. This screen contains two fields, via default, but will contain only one for our purposes. The user must enter their registered email address, and we will send them a new password which will act as the registration process has, where they will be given a link, and can then change their password to something they will remember

Home/My Account Screen

a.)

The screenshot shows a web browser window displaying the Drupal user account page for user 'xSKK169x'. The browser's address bar shows 'Home > user account'. The Drupal logo is in the top left, and navigation links for 'Support', 'Handbooks', 'Forum', 'Downloads', 'Contribute', 'Contact', and 'Community' are in the top right. A search box is also present. The user's name 'xSKK169x' is displayed with 'view', 'edit', 'track', and 'contact' buttons. A message box states 'The changes have been saved.' Below this is a 'History' section with the text 'Member for 5 min 12 sec'. The 'Personal information' section shows 'Full name: Christopher McConnell' and 'Country: United States'. The 'Newsletters' section indicates 'Current subscriptions: Currently no subscriptions' and provides a link to 'my newsletters'. A blue horizontal bar is visible below the newsletters section. The browser's taskbar at the bottom shows the 'Internet' icon.

Picture "a" is a screen shot of Drupal's default homepage that would act as the user's "Home/My Account" screen. Picture "b" is a custom design that shows all fields and buttons that will be included in the final version of the "Home/My Account" screen. These two screens will be combined in order to create one screen that will contain all necessary fields and buttons and will provide a professional and user friendly design. The users will see this screen once they successfully sign in to the system. After the user first registers, the profile will be blank. This screen consists of facts about the user including their careers, personal information, and their college life. This screen will also contain picture of the user that he/she chooses. From this screen the user will have multiple menu options which can be activated or deactivated by the Administrative user.

Edit Profile Screen

a.)

The screenshot shows the Drupal user profile edit interface. At the top, the Drupal logo and navigation menu are visible. The user's name 'xSKK169x' is displayed with 'view', 'edit', 'track', and 'contact' buttons. The 'account settings' tab is active, showing sections for account information, block configuration, comment settings, and contact settings. The account information section contains fields for username, email address, and password. The block configuration section has checkboxes for 'Contributor links' and 'Devel'. The comment settings section has a signature text area. A sidebar on the right shows a user menu for 'xSKK169x' with options like 'create content', 'issues', 'my projects', 'my account', 'recent posts', 'news aggregator', and 'log out'.

Picture "a" is a screen shot of the default "Edit Profile" screen provided by Drupal. Picture "b" is a screen shot of a custom design "Edit Profile" screen that contains all the correct fields and buttons that will be included in the final version of the "Edit Profile" screen. These two screens will be combined in order to create one screen that will contain all necessary fields and buttons and will provide a professional and user friendly design. The purpose of this page is to allow the user to change any information in their

profile. This page will be accessed from the user's Home/My Account screen. This screen contains information about the user, only some of which is required. The required fields are labeled with an asterisk. Upon submission, if no errors are found, the user will be redirected to their Home/My Account screen where the changes to their profile will be updated. If errors are found, the screen will be reloaded with a reason for the error.

Search Screen

The screenshot shows a search form titled "Search Page". It contains three input fields: "Name:", "Graduation Year:", and "E-Mail Address:". Each field is followed by a rectangular text input box. Below the input fields is a "Search" button.

Using this screen, registered users will be able to search for other members in the community. The user will search for other users by entering any of the following information (regarding the user they are searching for): name, e-mail address, or graduation year. The more information the user enters, the more specific the results that are returned will be. This screen will be accessed by clicking on the *Search* link located on the users Home/My Account Screen.

Results Screen

Results Page

	Graduation Year:
	Email Address:
	Name:
	Graduation Year:
	Email Address:

This screen will be shown after the user enters the search criteria for another user and clicks on the *Search* button on the Search Screen. This screen will provide a picture of the user along with their name, e-mail address, and their graduation year. If the user clicks on the other user's picture, they will be redirected to that user's profile.

This picture is a screen shot of the default "Contact Us" screen provided by Drupal. This screen will be accessed when the user clicks the *Contact Us* link on their Home/My Account Screen. This feature is used in order to allow the user to ask the administrator a question or just leave the administrator a comment. When the user hits the *Submit* button, an e-mail will be sent to the administrator.

Photo Gallery Screen

Photo Album One

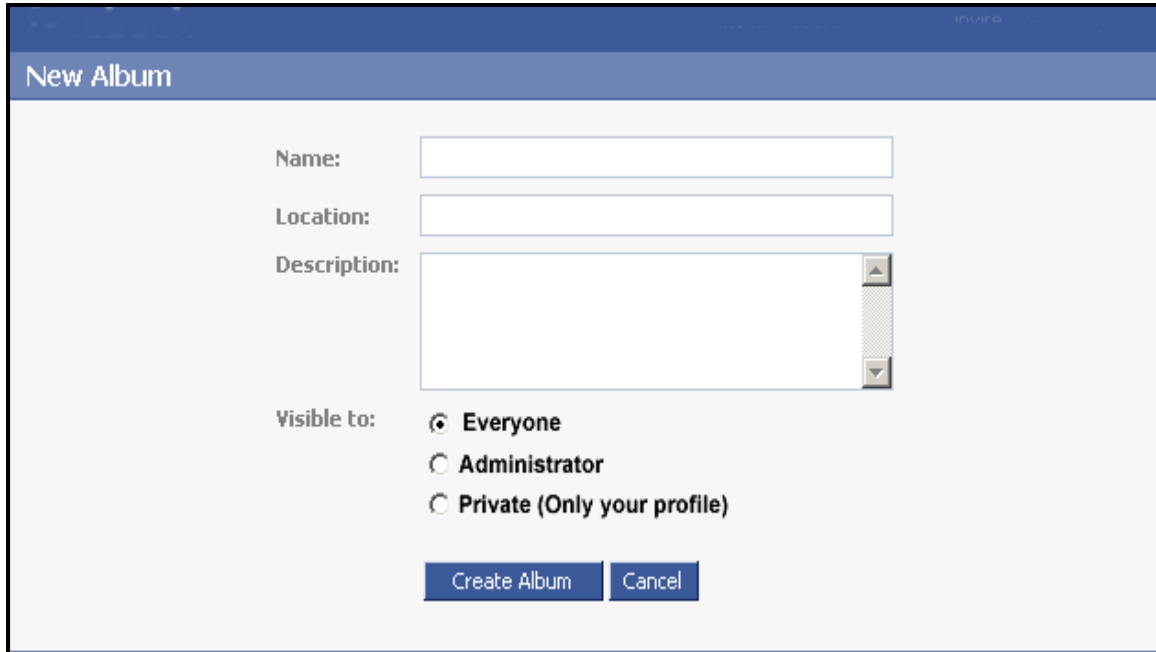

21st b-Day Album 1 of...

Updated 1 hour ago
Created October 16
45 photos
[View](#) | [Edit](#) |

Add Album

This screen is a view of the users' current photos and photo albums and is accessed by clicking on the *Photo Gallery* link on the users Home/My Account Screen. The user can view details about each album such as the number of pictures in it and the date it was created. The user also has the option of adding more albums. When the user clicks the *Add Album* button, the New Photo Album Screen appears.

New Photo Album Screen

The screenshot shows a web interface for creating a new photo album. At the top, there is a blue header bar with the text "New Album" on the left and "images" on the right. Below the header, the form is organized into several sections. The "Name:" section has a single-line text input field. The "Location:" section also has a single-line text input field. The "Description:" section features a larger, multi-line text area with vertical scrollbars on the right side. Below these fields, the "Visible to:" section contains three radio button options: "Everyone" (which is selected), "Administrator", and "Private (Only your profile)". At the bottom of the form, there are two blue buttons: "Create Album" and "Cancel".

This screen is used to create a new photo album. The user can enter the name of the album, where the pictures were taken, and a description of the album. The user will also have several privacy options for their album. If they choose “*Everyone*”, anybody who has access to the community system will be able to view their pictures. If they choose “*Administrator*”, the pictures will only be viewable by the user themselves and the administrator. The community will not have access to view these pictures. Lastly, if they choose “*Private*”, the pictures will only be visible by the user themselves. The administrator and the community will not have access to these pictures.

Edit Album Screen

Album Name

These are your current photos:

Upload Picture:

Browse:

This screen appears when the user wants to edit their albums and can be accessed by clicking on the *Edit* link on the Photo Gallery Screen. Inside the box will be a list of all the user's albums. The user has the options of deleting an album or editing it if there are albums available. If the user clicks on an album, all of its contents will appear. The user will then have the option of adding or deleting a picture from the album. To add a picture the user will have to browse the computer and find the location of that picture. Once found, the user will click the *Add Picture* button and the picture will appear in the album. To delete a picture the user has to click the picture in order to highlight it and then click the *Delete Picture* button.

Photo Confirmation Screens

! Confirmation !

Are you sure you want to delete this picture.

Yes No

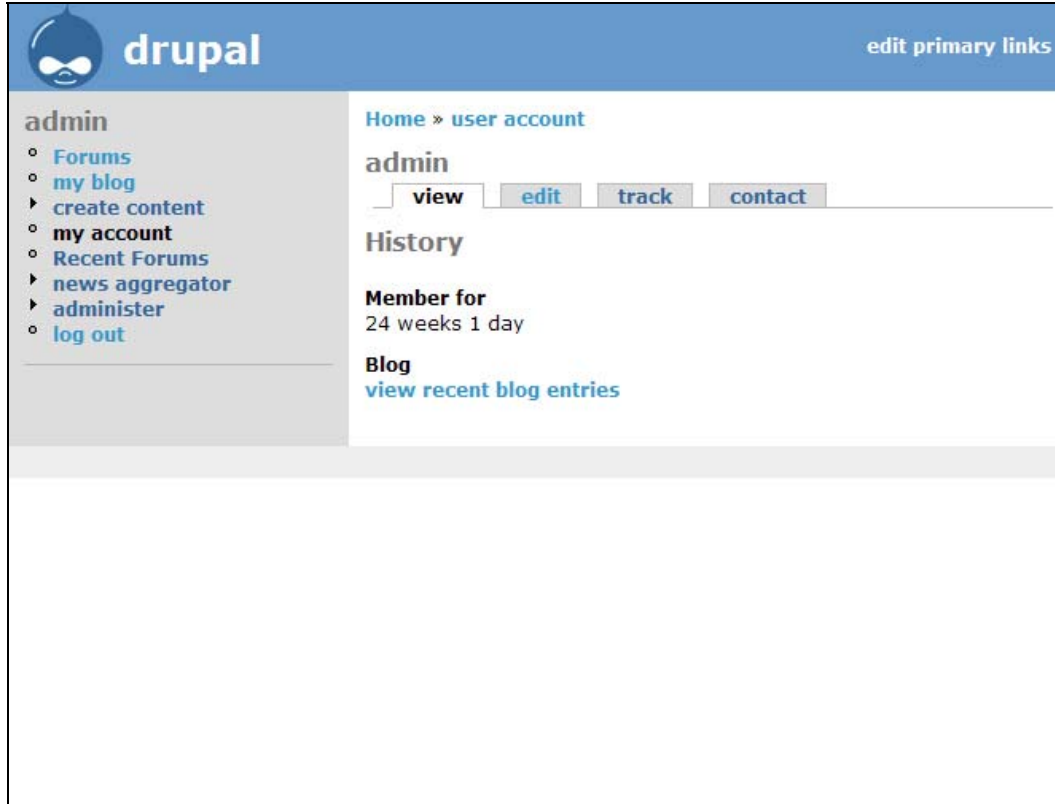

! Confirmation !

Are you sure you want to delete this album.

Yes No

These screens will appear when the user attempts to delete either a picture (top photo) or an entire album (bottom photo). These screens can be accessed by clicking on *Delete Album*, or *Delete Photo* button on the Edit Album Screen. The boxes are a safety feature to ensure that the user knows they are deleting a picture or an entire album. If they click "Yes", they will return to their Edit Album Screen with their picture or album no longer there. If they choose *No*, they will simply be returned to the Edit Album Screen with no changes made.

Administrator Control Panel

The screenshot displays the Drupal Administrator Control Panel for a user account. The top navigation bar is blue and contains the Drupal logo, the word "drupal", and a link for "edit primary links". On the left side, there is a grey sidebar with the heading "admin" and a list of menu items: "Forums", "my blog", "create content", "my account", "Recent Forums", "news aggregator", "administer", and "log out". The main content area shows the breadcrumb "Home » user account" and the user name "admin". Below the name are four buttons: "view", "edit", "track", and "contact". The "History" section is currently empty. The "Member for" section shows "24 weeks 1 day". The "Blog" section has a link to "view recent blog entries".

This picture is a screen shot of what the administrative user will see when he/she logs in. This page will allow the administrator to view different blog or photo entries that he/she has created. The administrator will have the right to edit any of the information on this page.

Administrator - Edit Account

The screenshot displays the 'Administrator - Edit Account' page in Drupal. The page is divided into several sections:

- Account information:** Includes fields for Username (admin), E-mail address (me@home.net), and Password. There are also radio buttons for Status (Blocked, Active) and checkboxes for Roles (teacher, writer).
- Theme configuration:** A table showing a list of themes with their names and whether they are selected. The 'bluemarine' theme is currently selected as the site default.
- Comment settings:** A section for configuring comment settings, including a signature field.

Screenshot	Name	Selected
	marvin: themes/chameleon/marvin	<input type="radio"/>
	pushbutton: themes/pushbutton	<input type="radio"/>
	bluemarine: themes/bluemarine (site default theme)	<input checked="" type="radio"/>
	chameleon: themes/chameleon	<input type="radio"/>

This screen can be accessed by clicking on the "Edit" tab located on the Administrative Control Panel Screen. This screen allows the administrator to change or add information to all aspects of his/her profile. This screen also provides a status option of "blocked" or "active." Selecting "blocked" prevents any other users from viewing the administrators profile while selecting "active" will allow all users to view the administrators' profile. For the purposes of the project, the default will be set to "blocked." In addition this screen will also allow the administrator to change the theme of the web site.

Administrator - Recent Events

The screenshot displays the Drupal Administrator interface. On the left is a navigation menu with 'admin' and 'administer' highlighted. The main content area shows a 'Home' section with a welcome message and a 'Filter by message type:' dropdown set to 'all messages'. Below this is a table of recent system events.

This screen can be accessed by clicking on the "Administer" option on the left hand menu bar. This screen is another version of the Administrator - Logs screen. This screen allows the administrator to view the most recent occurrences of the system. This screen differs only slightly from the Logs screen in that it holds events for a shorter amount of time and it only displays the most recent events.

Administrator Control Panel - Modules

The screenshot shows the Drupal Administrator Control Panel for the 'Modules' section. The left sidebar contains a navigation menu with 'admin' at the top, followed by 'modules' which is highlighted. The main content area is titled 'modules' and contains a list of modules. Each row in the list has columns for 'Name', 'Description', 'Enabled', and 'Throttle'. The 'Enabled' column contains checkboxes, and the 'Throttle' column contains checkboxes or the word 'required'. A 'Save configuration' button is located at the bottom of the list.

Name	Description	Enabled	Throttle
aggregator	Aggregates syndicated content (RSS, RDF, and Atom feeds).	<input checked="" type="checkbox"/>	<input type="checkbox"/>
archive	Displays a calendar for navigating older content.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
block	Controls the boxes that are displayed around the main content.	required	required
blog	Enables keeping an easily and regularly updated web page or a blog.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
blogapi	Allows users to post content using applications that support XML-RPC blog APIs.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
book	Allows users to collaboratively author a book.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
comment	Allows users to comment on and discuss published content.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
contact	Enables the use of both personal and site-wide contact forms.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
drupal	Lets you register your site with a central server and improve ranking of Drupal projects by posting information on your installed modules and themes; also enables users to log in using a Drupal ID.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
filter	Handles the filtering of content in preparation for display.	required	required
forum	Enables threaded discussions about general topics.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
help	Manages the display of online help.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
legacy	Provides legacy handlers for upgrades from older Drupal installations.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
locale	Enables the translation of the user interface to languages other than English.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
menu	Allows administrators to customize the site navigation menu.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
node	Allows content to be submitted to the site and displayed on pages.	required	required
page	Enables the creation of pages that can be added to the navigation system.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
path	Allows users to rename URLs.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
ping	Alerts other sites when your site has been updated.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
poll	Allows your site to capture votes on different topics in the form of multiple choice questions.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
profile	Supports configurable user profiles.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
search	Enables site-wide keyword searching.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
statistics	Logs access statistics for your site.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
story	Allows users to submit stories, articles or similar content.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
system	Handles general site configuration for administrators.	required	required
taxonomy	Enables the categorization of content.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
throttle	Handles the auto-throttling mechanism, to control site congestion.	<input checked="" type="checkbox"/>	required
tracker	Enables tracking of recent posts for users.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
upload	Allows users to upload and attach files to content.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
user	Manages the user registration and login system.	required	required
watchdog	Logs and records system events.	required	required

This screen can be located from the Administrative Control Panel screen by clicking on the "Modules" option located as a sub category of "administer" on the left hand menu bar. Modules are plug-ins for Drupal that extends its core functionality. This screen contains a list of all available modules as well as descriptions of each. From this screen, the administrator can chose which modules are enabled. Once a module is enabled, new permissions might be made available. Modules can be automatically temporarily disabled to reduce server load when the site becomes extremely busy. This can be done by checking the "throttle" check box instead of the "Enabled" check box.

This screen can be located from the Administrative Control Panel screen by clicking on the "Access Control" option located as a sub category of "administer" on the left hand menu bar. This screen breaks down every aspect of the site and gives the administrator the option to allow or disallows each option for each user type. For example, community users can create profiles and web blogs but the "anyone" user can not.

Administrator Control Panel - Content

The screenshot shows the Drupal Administrator Control Panel for the 'Content' section. The page has a blue header with the Drupal logo and 'drupal' text on the left, and 'edit primary links' on the right. A left-hand navigation menu lists various administrative options, with 'content' highlighted. The main content area shows the breadcrumb 'Home » administer', the 'content' title, and tabs for 'list', 'books', and 'search'. Below this, there is a text block explaining that the list shows all posts and that clicking a title or author's name leads to more details. A filter section titled 'Show only items where' allows filtering by status (published), type (blog entry), and category (sdf). An 'Update options' section includes a dropdown menu set to 'Approve the selected posts' and an 'Update' button. At the bottom, a table lists content items with columns for Title, Type, Author, Status, and Operations.

This screen can be located from the Administrative Control Panel screen by clicking on the "Content" option located as a sub category of "administer" on the left hand menu bar. From this location, the administrator can edit different types of content that will be available such as photo albums, blogs and forms.

Website Themes

The theme of the website can be changed by clicking on the "Themes" sub menu under the "administer" option on the left hand menu bar. It can also be accessed from the Administrator - Edit Account screen. At this point in the project, we have three possible theme options which are described below.

Website Theme 1

This template was created by the developing team at <http://openwebdesign.org>. This template uses a single section, with divisions among the site content and a standard top navigation bar. The side panel can display hot links that will allow changes to be made or will allow navigation to another page.

Website Theme 2

This template was created by Andreas Viklund, who is also commonly known as “Voodoo Dolly.” This template was recently redone on November 13, 2006. It contains a basic two column layout style with a navigation menu located on the right hand side. The middle of the screen would contain the site's content. This website theme was created using small images which helps the page load quickly.

Website Theme 3

The screenshot displays a Drupal website theme with a two-column layout. At the top left is the Drupal logo, a purple sphere. To its right is the word "Drupal" in a serif font. In the top right corner, there are three links: "Link 1 | Link 2 | Link 3". Below this is a blue navigation bar with three buttons labeled "Link 1", "Link 2", and "Link 3".

On the left side, there is a search bar with the text "Search". Below it is an "Admin" menu with the following items: "my blog", "create content", "my account", "recent posts", "news aggregator", "administer", and "log out".

The main content area features a blog post with the title "Donec felis eros, blandit non". Below the title are "view" and "edit" buttons. The post is attributed to "Admin" and dated "Sun, 2006-08-20 09:11". The body of the post contains a block of Latin placeholder text. At the bottom right of the post area, there is a link to "add new comment".

At the bottom of the page, there is a footer with the text "© All rights reserved."

This template is a sequel to another template called "Plain 1.0". This template is called "Plain 2." It uses a two column system and provides a navigation menu along the top to provide basic links, and a side menu for more direct links. This template provides a very professional look, and also loads very quickly.

This screen can be located from the Administrative Control Panel screen by clicking on the "Logs" option located as a sub category of "administer" on the left hand menu bar. This screen allows the administrator to view a log of activities that have occurred on the system. This list will tell the administrator which users log in and which do not as well as what users do when they are logged in. This screen also contains sub menus on the side that allow the administrator to see which users log in the most (this is called "Top Visitors") and which user profiles are searched the most (this is called "Top Pages").

This screen can be located from the Administrative Control Panel screen by clicking on the "Menus" option located as a sub category of "administer" on the left hand menu bar. This screen allows the administrator to enable or disable certain accessories that are associated with the website. These accessories can be disabled completely or selectively. If a feature is disabled completely, no user can use that feature. If the feature is disabled selectively, a particular user's blog entry may be removed or that user's individual ability to use the blog feature can be removed.

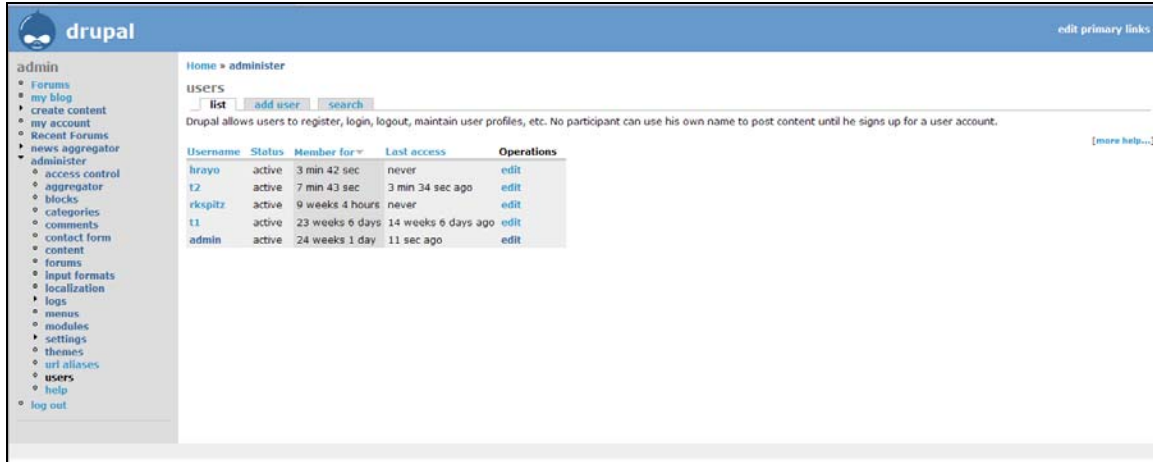

Administrator - Settings

The screenshot shows the Drupal Administrator interface. At the top left is the Drupal logo and the word "drupal". At the top right is a link for "edit primary links". On the left is a vertical navigation menu with categories like "admin", "forums", "my blog", "create content", "my account", "Recent Forums", "news aggregator", "administer", "access control", "aggregator", "blocks", "categories", "comments", "contact form", "content", "forums", "input formats", "localization", "logs", "menus", "modules", "settings", "themes", "url aliases", "users", and "help". The "settings" category is expanded. The main content area is titled "Home » administer" and "settings". Below the title is a subtitle: "General configuration options for your site. Set up the name of the site, e-mail address used in mail-outs, clean URL options, caching, etc." There are several expandable sections: "General settings", "Error handling", "Cache settings", "File system settings", "RSS feed settings", "Date settings", "Site maintenance", "String handling", and "Cron jobs". At the bottom of the settings area are two buttons: "Save configuration" and "Reset to defaults".

This screen can be located from the Administrative Control Panel screen by clicking on the "Settings" option located as a sub category of "administer" on the left hand menu bar. This screen allows the administrator to set general configuration settings for the site. Specifically the administrator can change general settings, error handling settings, file system settings, and can perform site maintenance and string handling. General settings include basic fields and options for the website and database. Error handling takes care of different errors that may arise during the use of the website. This will allow the administrator to access and change portions of the code if necessary. File system settings are simply in regards to the uploading of user photos. Site maintenance includes the theme and appearance of the site as a whole and string handling deals with checking to ensure that input that goes into the database is acceptable.

Administrator - User Screens

Home > administer

users

[edit](#) [add user](#) [search](#)

Drupal allows users to register, login, logout, maintain user profiles, etc. No participant can use his own name to post content until he signs up for a user account. [\[more help...\]](#)

Username	Status	Member for	Last access	Operations
hrayo	active	3 min 42 sec	never	edit
t2	active	7 min 43 sec	3 min 34 sec ago	edit
rksplitz	active	9 weeks 4 hours	never	edit
t1	active	23 weeks 6 days	14 weeks 6 days ago	edit
admin	active	24 weeks 1 day	11 sec ago	edit

This screen can be located from the Administrative Control Panel screen by clicking on the "Users" option located as a sub category of "administer" on the left hand menu. This screen gives the administrator a list of all users that are registered within the system including how long they have been members, and the date and time of their last visit. Clicking on the "edit" option to the right of each statement will allow the administrator to edit the content of that user's profile.
