

Virtual Network Device Mapping System

Software Plan

By

MAJIK Software Solutions

Welcome

Mr. Ken Swarner

Systems & Operations Manager

School of Science

Siena College

&

Mr. Eric Crossman

Assistant Systems and Operations Manager

School of Science

Siena College

Team MAJIK

- Kelly Morgan – Team Leader
- Amanda Danko – Information Specialist
- Kevin Johnson – System Administrator
- Ian Kost – Project Engineer
- Mark Riley - Webmaster

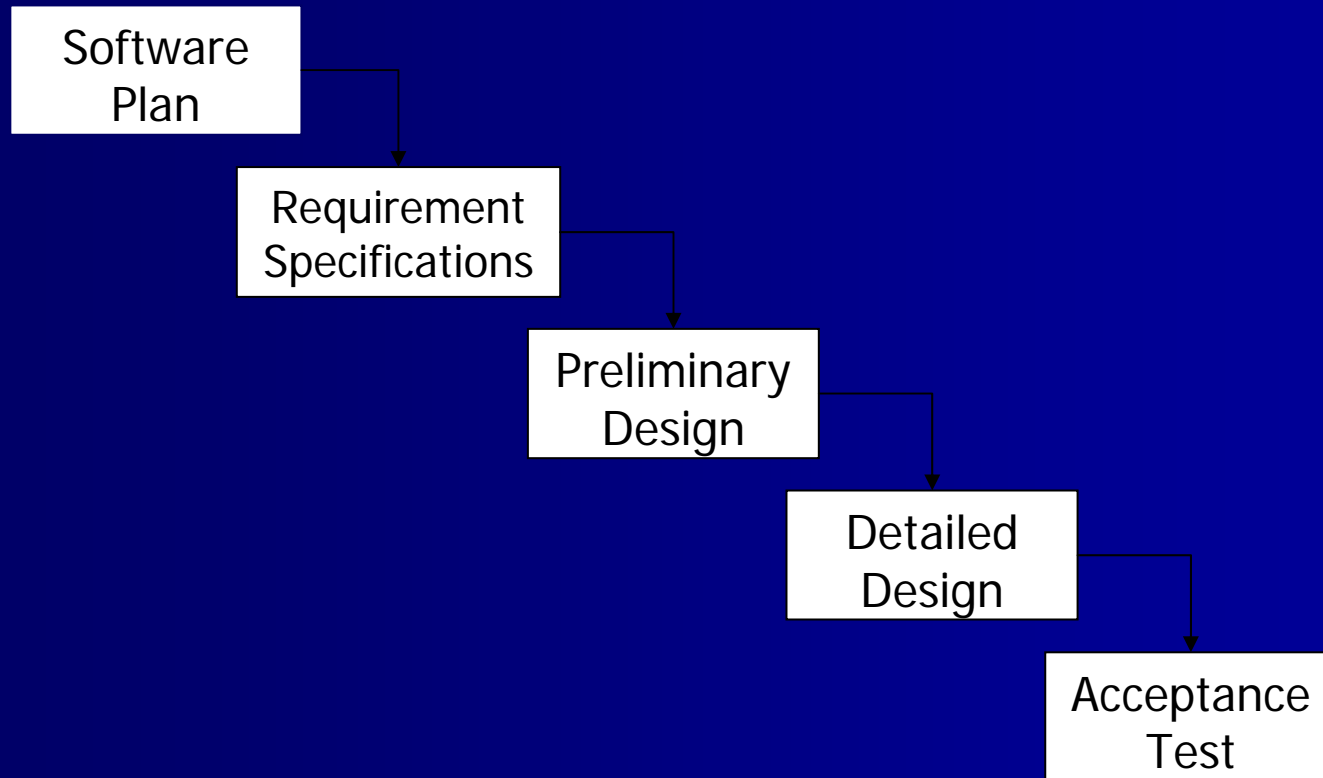

Problem Definition

- Information source for network devices
- Coordinate network device info graphically
- Web based network mapping tool

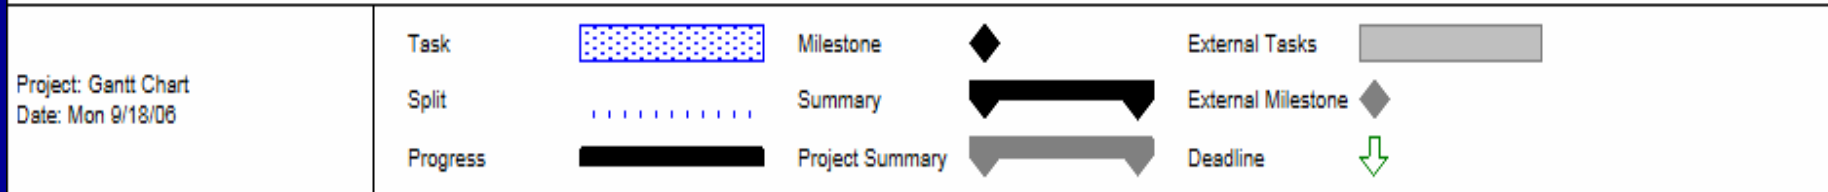

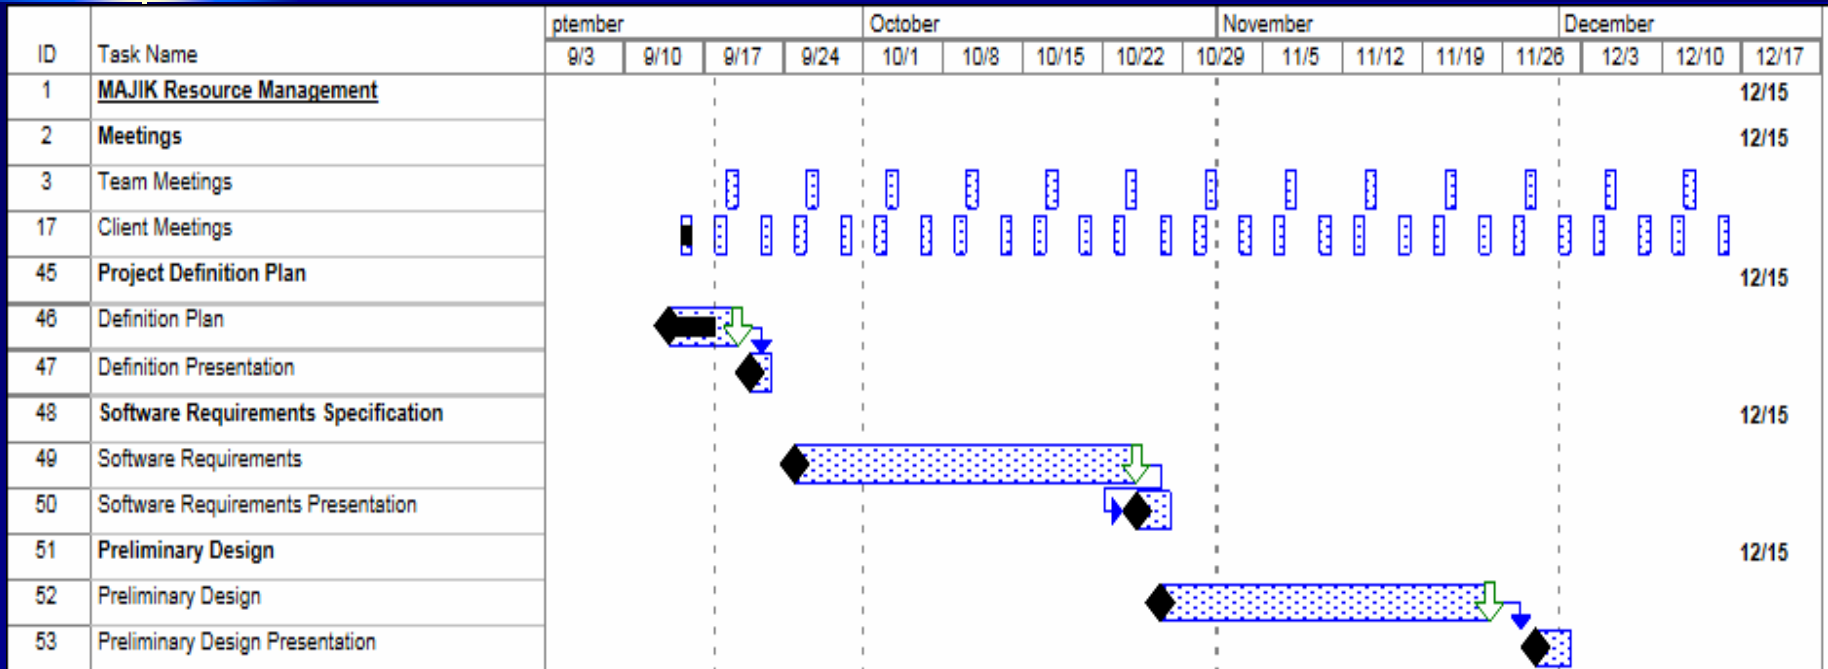

Justification & Goals

- Gather information quickly and easily
- Graphical view of the floor plans
- Extensible software

Linear Sequential Model

Schedule

Supporting Documentation

- Software Requirements Specifications
 - Documents: October 23, 2006
 - Presentation: October 25, 2006

- Preliminary Design
 - Documents: November 27, 2006
 - Presentation: November 29, 2006

Supporting Documentation, cont.

- Detailed Design
 - Documents: February 2007

- Acceptance Test
 - Documents: April 2007

Summary

Any Questions?

Thank You!

We look forward to working with you on
this project.
