Team Meeting #2

e-SATA: Starting to code...

Members Present: 5/5
Colin Cubinski
Daniel Nakhla
Matthew Restivo
James Rocco
Justin Valentini

Date: March 22nd, 2007
Start Time: 6:30PM
Location: Software Engineering Lab

Tonight’s meeting was brief, just to assess where the team has gotten since the previous meeting. Since all of the work has now been divided among the group, we wanted to collaborate and make sure that everybody knew what they were doing, and were making some type of progress. Having people work on something they don’t understand or cannot figure out will be a waste of time, and we wanted to make sure everybody was comfortable with their workload.

End Time: 7:00PM
