Agenda

Intro and Summary of Project:
Justin Valentini

Problem Definition and Project Plan
Matthew Restivo

Schedule of Development
Daniel Nakhla
Welcome

Dr. Scott Hunter
Computer Science Department
Siena College

Ms. Jami Cotler
Computer Science Department
Siena College
Problem Definition

- To develop software that will aid our clients in grading pre-lab exercises.

- Providing the students with feedback on their pre-lab exercises in the CSIS-010 course.
Specific Ideas

• Allow students to submit pre-labs electronically.

• Provide statistical information.

• Check formatting of the submitted document.

• Create a user-friendly interface.
Plan for e-SATA

We are here.

This is the next step.
Fall Development Schedule

**Software Requirements Specifications:**
Documents due: October 23rd, 2006
Presentation on: October 25th, 2006

**Preliminary Design:**
Documents due: November 27th, 2006
Presentation on: November 29th, 2006
Spring Development Schedule

**Detailed Design**
Documents due: February 12\textsuperscript{th}, 2007
Presentation on: February 14\textsuperscript{th}, 2007

**Acceptance Test:**
Documents due: April 9\textsuperscript{th}, 2007
Presentation on: April 11\textsuperscript{th}, 2007
Summary
