Quantum Technologies

Client Meeting 8

Attended by Paul Cherrier, Jordan Holoboski and Julian Thomas

Monday November 11, 2013 12:45pm

- The hours logged will follow an hour-to-hour format with quarterly increments for the minutes portion
- Supervisors will be able to change subordinates hours.
  - A change log is recommended with a notification of a change being made
- A base employee will be able to see the average hours and active projects from the home screen.
- First name, last name and email are required for entry into the database (phone number is optional).
- User will be able to edit their profile from a dedicated page (password, email, etc.).
  - Password will use conventional format
- On the home page of a user, other team's average hours along with active/inactive projects will be displayed depending on their duration.
- Users can either be active or inactive.
