

Software Plan Meeting: Thursday September 26, 2014, 10:15-10:50am

Attendees: Ryan Martin, Mary Ritchie, Roberta Sandler, and Mary Partridge-Brown

## Notes

- Reviewed software plan
- Went through the next steps we are going to take based on plan

### Feedback:

- Unsure about the donor profiles and how they want that part to work ...must be as simple as possible for them because there are many times they get large donations
- Are thinking they want more general recording system for inventory (Ex: all womens pants stored under the same name without taking into consideration sizes etc.)

### Next Steps:

Since they are in a very busy time of year we need to give them enough time in advance when scheduling our next meeting. We discussed what requirement specifications means and informed them that this will be our next step.
