SMARK Solutions

Date: 9/18/2014
Time: 10:00 AM - 11:00 AM
Location: Software Lab
In attendance: All

Notes:

Everyone in the group reviewed the entire software plan, looking for changes which they felt to be necessary before finalizing the plan. After going through the entire software plan as a team we added all of the team members' resumes to the end of the software plan and decided upon an individual to do the formatting for the plan to ensure that the styles of all of the sections were the same.
