

SMARK Solutions

Date: 10/26/2014

Time: 8:00 PM - 9:30 PM

Location: Software Lab

In attendance: All

Notes: We compiled all of the group members work for the Requirement Specifications into a single document. Once compiled, all members of the group read through the entire document, looking for revisions. Afterwards, we looked at what the group had to say and made the appropriate revisions. Finally, we assigned someone to finalize the document by ensuring that the style was consistent through all parts.
