

SMARK Solutions

Date: 10/27/2014

Time: 9:00 PM - 12:00 AM

Location: Software Lab

In attendance: Mary, Ryan, Anna, and Sal

Notes: Created the powerpoint for the presentation on the requirement specifications. We had person on the computer to work on the presentation as the others looked at the parts of the document to see which portions of the document would be most important to include. Additionally, we looked at the powerpoints from the previous years. Once finished we divided up the presentation and assigned someone to make the final touches on the presentation.
