SMARK Solutions

Date: 11/9/2014
Time: 8:00 PM-9:30 PM
Location: Software Lab
In attendance: Mary, Ryan, Anna, and Sal

Notes: Began by looking at the data dictionaries from the previous presentations. Then we looked at the data flow diagrams in order to see what data we had to transfer through the software. We then created a list in Excel of all of the different names. Once we had all of them accounted for, we thought as a group about the characteristics of each of the data pieces and described them appropriately.
