Clients Present: 1/2
Eric Crossman

Agenda

1. Clarify project information:
Creating a graphical user interface with a toolbox to move items around a room that get added to a database

2. Discuss probable user types
three users:
1. Admin: has the ability to view everything and read+write to our database
2. Assistant user: the ability to view everything and read from the database, but limited write capabilities, the limits will be discussed at a later time
3. member: only has read capabilities on their devices

3. Discussed any client constraints
Mr. Crossman said he will make us aware of real constraints in the future as they become necessary
