Orion Technologies
Client Meeting #9

Date: 11/16/07
Start Time: 1:30pm
End Time: 1:50 pm
Location: Mr. Crossman’s office

Members Present: 2/4
Aleksandr Spektor
Christopher Vincek

Clients Present: 2/2
Eric Crossman
Ken Swarner

Notes

- The ‘Machine’ table will be used from the database to keep track of the inventory fields.

- Advanced Search will have a choice to search by AND or by OR.

- Admins will default to view mode, rather than edit mode.

- Advanced Search will no longer have checkboxes. It will only search by fields where data is entered.

- The label ‘Attributes’ will be changed to ‘Inventory Fields’

- Make the device information box in view mode larger – either by default, or through some type of JavaScript expansion.
