Work Experience

UASRP Program – University at Albany (June 2015- August 2015)

- Spent 10 weeks doing independent mentor guided research on cyber security issues
- Learned about SCADA systems and how to bypass the security of said systems
- Tested my findings on my mentors traffic control system
- Presented my findings at the McNair Conference in Buffalo NY

LEADERSHIP

HEOP PEER MENTOR-Siena College (September 2014 – December 2015)

- Mentoring program in which upperclassmen HEOP students help undergraduate students adjust to Siena College, as well as act as guides for social and educational situations.
- Mentored 3 students cultivating a semester long experience in developing interpersonal skills and educational achievement.

HEOP ADVISORY BOARD – Siena College (September 2013– May 2016)

- Voted as representative by my class year, I worked with the HEOP staff discussing a verity of issues concerning the program and the college
- Assisted in developing additional tutoring for students that were in academic danger.

Presidents' Advisory Council on Diversity and Inclusion – Siena College (April 2015 – current)

- Serving as the HEOP representative, I work with other students, faculty, and administration, in order the tackle the issues facing diversity on Siena College Campus.
- Created a comprehensive plan of action to advise the president of Siena College on where budgetary priority should go concerning these issues.
